INAL CUMULATIVE INDEX—DO NOT DESTROY

FERENCE TO NOVEMBER INDEX NO LONGER NECESSARY

MOODY'S® BOND SURVEY

Cumulative Index and Bulletin of Ratings: December 1975

(Taxable Bonds, Tax-Exempt Securities, and Preferred Stocks)

(Covers issues of January 6 through December 29, 1975)

The items in the Index are arranged alphabetically. Where two or more page references are given, the first listed always indicates the most recent one.

The Bulletin of Ratings appears at the end of this section and is divided into Taxable Bonds, Tax-Exempt Securities, and Preferred Stocks. The ratings listed in the bulletin are for newly rated issues or those which have been revised in 1975.

General Notes

*Provisional ratings are assigned to bonds and preferred stocks not yet offered. They are based upon available information including SEC registration statements, if any, and are subject to change as additional information becomes available.

†Withdrawal of a rating must not be construed as any reflection on the quality of a bond. Ratings are withdrawn if reasonably up-to-date data are no longer available; if new circumstances arise, the effects of which are not satisfactorily analyzable; or if a bond is called for redemption or for other reasons.

Those municipal bonds in the **A** and **Baa** groups which Moody's believes possess the strongest investment attributes are designated by the symbols **A 1** and **Baa 1**. Other **A** and **Baa** municipal bonds make up the balance of their respective groups.

Con. (. . .) Bonds for which the security depends upon the completion of some act or the fulfillment of some condition are rated conditionally. These are bonds secured by (a) earnings of projects under construction, (b) earnings of projects unseasoned in operating experience, (c) rentals which begin when facilities are completed, or (d) payments to which some other limiting condition attaches. Parenthetical rating denotes probable credit stature upon completion of construction or elimination of basis of condition.
